

# New version v3 GLOBALG.A.P. CFM

## Main changes regarding the old version v2.2

### INFORMATION

**New version v3 of the GLOBALG.A.P. CFM (Compound Feed Manufacturing) standard: Summary of the main changes regarding version v2.2**

#### Target

- Help to internalize and understand in a practical and profound way the implication and the changes that the new version of the GLOBALG.A.P. CFM standard (Compound Feed Manufacturing for animals: livestock and aquaculture) entails at a level of concepts and key points on the General Regulations and on the checklist, necessary to maintain or achieve the certification.

#### Addressed to:

- Professionals of the sector.
- Managers, Production managers and key staff of feed-mills.
- Quality Control Managers and key members of the quality team of the company.
- Responsibles for the implementation of the standard and consultants.
- Whoever can be interested in knowing the scope of the changes and its implications of the new version of the standard (farm-assurers, farmers, and fish-farmers users of this type of feed, university students, groups of interest, etc.).
