

IN COMMERCIAL MATERIAL OF THE COMPANY

1.- Conditions for obtaining the license to use the HALLMARK

The license to use the ACERTA's hallmark of certified quality product, hereinafter "the hallmark" is granted only to companies that have received the conformity certificate by ACERTA. Such license shall be in force until the certificate expires or is cancelled by ACERTA.

Satisfied the above circumstances, the licensee may use the mark under the conditions described herein.

2.- Contents of ACERTA's hallmark for quality certified product.

The hallmark includes the following elements:

- ACERTA's registered mark with white background and black text and graphics or color as detailed in section #4.
- Reference to the assessed standard and certificate number.

3.- Hallmark applications

Although the licensee should consult ACERTA regarding any form of application of the hallmark, in general terms, it should not be used so that it can lead to confusion about the scope of guarantees covered.

The following rules must be respected strictly:

On the products:

- Cannot be applied on units of products, nor on primary nor secondary packaging.

On commercial business information:

- It can be used in the company information associated with the product or products within the scope of the certificate.
- If it is used in generic advertising and this company manufactures products not included in the scope of the certificate, must be clearly explained what products are covered by the certificate.

On stationery (paper company, letters, bills ...).

- Cannot be used on these items.

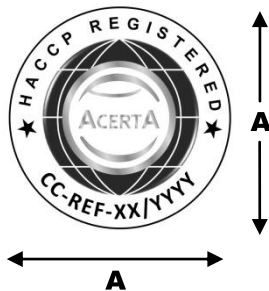

4.- Rules for graphic application

ACERTA provides the hallmark to the applicant in electronic support (jpeg, gif, tiff, etc.)

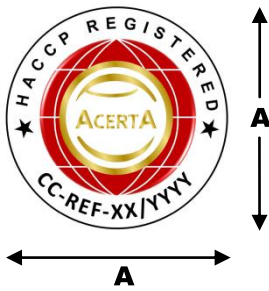

In any case, the hallmark must be applied in homothetic way, ie, respecting the proportions of width and height, and must never be applied smaller than 1.6 cm in width (> 1.6 cm).

5.- Models and design features

Hallmark in one color

Hallmark in several colors

Background colors are selected by ACERTA according to the certified standard
